

# SOLAR HOT WATER SYSTEM FREEZE PROTECTION VALVES

## SOLAR COLLECTOR & EXPOSED PIPING ANTI-FREEZE SOLUTION

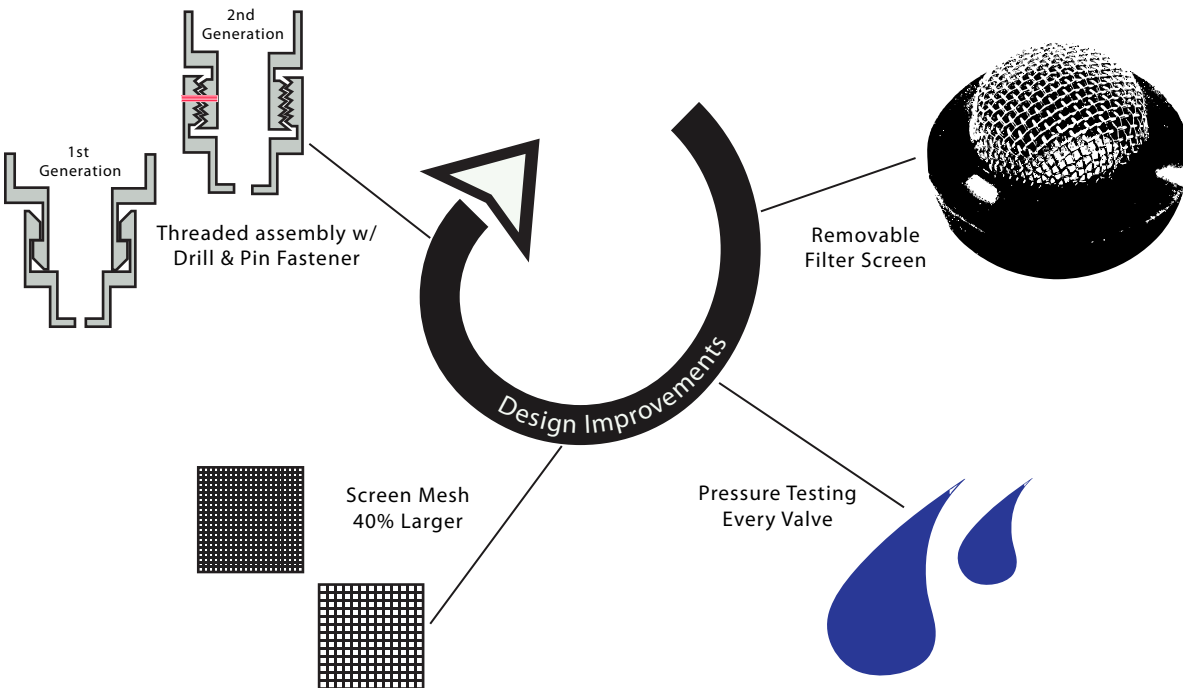

### Greater Reliability & Performance

#### Design Modifications & Improvements

#### Second Generation Freeze Protection Valves

Brings Greater Reliability & Improved Performance

- ❑ Removable filter screen for easy cleaning
- ❑ 100% Pressure tested at assembly to ensure no leaks
- ❑ Larger mesh filter reduces valve clogging
- ❑ Threaded together & drill and pinned body assembly

**WARNING:** Do not expose valves to temperatures above 300F (148.8c) as this may damage the valve.
